Printing Press Disaster!

A fire ripped through a Douglas house early in the evening of December 5th, destroying a printing press, lab equipment, and several vats of chemicals. Though there were lots of rumors to the contrary, Juneau Police do not suspect drugs to be involved. The Saint Gabriel family cites this incident as the only reason the annual newsletter is not being published and not for any lack of time or source materials.

In lieu of reading the newsletter, please tell your loved ones how special they are and enjoy this wonderful coloring activity.
